**Linkedin:** /burak-fidan
**Phone:** +905345442197

## EDUCATION

**Marmara University -** Computer Engineering - **2023 (Expected Grad. Date)**

## EXPERIENCE

**Kanma APP | Product Owner | Jan 2022 - Aug 2022**
Mobile with Flutter and Backend with Go, MongoDB, Redis & Open API.

**Eftax Co, Ltd | Back End Developer | Jul 2021 - Jan 2022**
Working on backend of learnavi.com with Go & MongoDB.

**SUGEE Kansai | Mobile Developer | May 2019 - Jul 2021**
Developing iOS & Android Applications. Firebase(Firestore - Realtime Database), Cloud Functions, FCM, Google Translate API, Google Maps API and some other libraries and API's used.

**Mutlubiev | Software Intern | Aug 2020 - Oct 2020**
Worked on Android applications with Senior Android Dev. Added new features and fixed bugs.

**creWin | Android Developer | Dec 2019 - Aug 2020**
Worked on 2 different Android projects, First project developed by me from scratch. Second project was developed previously, I fixed bugs, added new features and improved code quality.

**SUGEE Kansai | Development Intern | Feb 2019 - Apr 2019**
In a Start-up Company located in Osaka/Japan, Working on Android Application with Firebase, Google Translate API, Google Maps API and some other libraries and API's.

**Experteam | Intern | Jul 2018 - Aug 2018**

## CERTIFICATIONS

**AIESEC** - Leadership Development Experience

**UDEMY** - Android Jetpack Kotlin - Aug 2019

**UDEMY** - Java Course - Feb 2018

**UDEMY** - Android & Java Course - Mar 2018

**UDEMY** - SQL Course - Jul 2018

**UDEMY** - Go & Multithreading Course - Jun 2018

## SKILLS

**Golang** - Kotlin - **Python** - Swift - **Git** - Java - **Django** - Dart - **Flutter** - Heroku - **Jetpack** - SQLite - **MVVM** - Firebase Cloud Functions - **MongoDB** - Backend Development - **Mobile Development**

## PROJECTS

**Backend/Go-MongoDB & Flutter & Puppeteer** - Kanma - Personal Finance

**Android** - Exchange & CryptoCurrency Tracker

**Android** - Wallmedia Wallpaper Application

**Android** - Open Source Web to AndroId App

**Android** - Mad Planets 2D - UnIty C#

**Android** - MyAnimeInfo - Anime Browser

**Android** - Toastie - Android Toast Library

**Android** - FriendsLeagueTable - League Tracker

**Android** - Todo Application

**Android/iOS** - OnlIne & Offline Password Manager

**Android/iOS** - WhatTODO - Todo Application

**Android/Kotlin** - SubscriptionManager

**Android/Kotlin** - MyAnimeInfo 2 - Anime & Manga

**iOS/Swift & Android/Java-Kotlin** - Sugee Kansai

**Android/Kotlin** - creWin Company

**Backend/Golang-MongoDB -** Learnavi(learnavi.com)

**Backend/Django-PostgreSQL & Android** - Map Based SNS

## COVER LETTER

Dear Sir/Madam,

I would like to introduce myself first. I studied Computer Engineering at Istanbul Sehir University and I am currently on Marmara University. I am looking for positions that will help me to increase my creativity, productivity and skills.

My curriculum was focused on Data with Python and Java. I took courses related to Software, Object Oriented Programming, Algorithms, Data Structure, Python, Computer Network, Operating Systems and Digital Logic Designs. While taking those courses, I studied on Java, Kotlin, Swift, Algorithms, Python and Django to improve my skills on Mobile Development, Backend and Software generally. I solved algorithm problems from coding challenge websites, I took courses on Udemy, I've finished projects to improve my skills on coding and to understand the logic of coding.

In addition to my academic courses, I did an internship in Osaka/Japan in a start-up company. In that internship, I've worked on Android Application with MVVM architecture and Firebase, Google Maps API, REST API's and libraries. After that internship I've worked remotely on Android & iOS applications and Backend with Golang/MongoDB for that Japanese start-up company. Also I joined other companies in Turkey/Istanbul as an Android Developer. I developed several apps for both Android and iOS with Java-Kotlin and Swift. In addition to that for my graduation project I developed REST API with Django REST Framework for SNS app. Still, I work on various different projects to push my limits and to improve my skills on coding. I have a passion for coding and creating new stuff that will benefit to people.

I would appreciate if you could consider my application which is enclosed. Please do not hesitate to contact me.

Best Regards,
Burak Fidan
